

PAX SP20

Secure PINPad with Comprehensive Options

PAX's SP20 meets the latest standards for PIN entry, ensuring transaction security. It leads the market for secure PINPads by offering PCI security, ergonomic design and an elegantly integrated privacy shield.

The SP20 is a plug-in compatible replacement PINpad with a variety of connection options to work in any POS system. It's perfect for many different payment environments. The tactile, visual and audio feedback keypad minimizes entry errors and speeds up the payment process.

The SP20 features a large and easy-to-read display, and customers clearly confirm the entered amount for secure transactions.

Effortless and Easy Features with Hi-Performance.

- Ergonomic design that supports both countertop environments and handheld.
- Plug-in compatible replacement PINPad.
- Easy connectivity via serial to ECR and POS devices.
- Comprehensive security protection solutions.
- Large and easy to read display.
- Visual and audio feedback keypad help minimize entry errors and speeds up the payment process.
